

Morning Year One! 😊

As always, it is not necessary to print out all of these slides so please read them through carefully so you can decide exactly which are needed as a paper copy.

Thank you.

Session 5

What's the problem?

- Saira wants to share the toys below with her sister. How many toys will they get each? Can they share them equally? Explain why.

Show your working out here and explain your answer.

RISE

WALT: Solve one-step problems involving division, by calculating the answer using concrete objects or pictorial representations.

*Choose a Bingo board from the ones opposite.

Let's play multiplication and division bingo using the 2, 5 and 10 times tables!

Ask your grown up to ask you questions that use the 2, 5 or 10 times tables—they should be multiplication or division problems. If you have the answer on your card, cover it up.

Remember to shout Bingo when you have covered all your numbers! Good luck!

11	12	1
0	9	50

5	12	1
25	0	8

10	14	5
0	20	4

70	15	3
2	8	40

1	10	6
20	0	12

6	20	25
2	11	12

10	3	8
4	2	100

11	4	40
3	16	9

Have a super weekend!
