

Thursday 25th June 2020

Please refer to Monday's power point for the 'everyday' activities.

- Remember that we are not using White Rose videos at the moment as we have completed the fractions lessons.
- Here's a bit of Sudoku to warm up your brains!

Sudoku 4 x 4 Puzzles

Each row and column contains all the digits 1 to 4.

4			3
3	1		
2			1
		2

2			4
	1		2
4		3	1

Maths !

- **First** complete the TT Rockstars sheet.
- **Grown ups** - as explained on the first slide we are out of videos so we are using a combination of Classroom secrets, Twinkl and White Rose resources.
- **Children** - as we have run out of videos we are going to use some of the classroom secrets/ Twinkl power points as your introduction to lessons.
- This week is all about shape! Like time, some children will find this much easier than number based Maths and some will find it trickier. YOU choose which activities that you want to do.
- Looking for 2D and 3D shapes around your home is a great way to start your learning.
- **Have fun and I hope that the sunny weather holds.**
- **Finally** check your answers and correct any mistakes, just like we do in class. You can even use a pink and green pen if you want to. (Bonus points if you find a mistake!)
- **Maths this week**
- Monday - 2D shape hunt around your homes and gardens plus White Rose sheets.
- Tuesday - 3D shape hunt around your homes and gardens and make 3D shapes.
- Wednesday - 3D shapes - varied fluency and problems
- **Thursday - angles and turns**
- Friday - Friday challenge

Sixty in 180. Can you complete the 60 TT Rockstars sums in 3 minutes (180 seconds)

Show your parents how fast you are at these.

Thursday's Maths

- Angles and turns, a bit of a tricky one for me to plan on paper as you will need to do some practical activities too to get the "feel" for turns.
- Have a look at the vocabulary map below and some of the power point slides and ask a grown up to practice giving you instructions to turn half, quarter and full turns and moving clockwise and anti clockwise. They can also tell you to turn 1 right angle to the left or right etc. In school we would usually spend about 15/ 20 minutes perfecting this - especially as some children still wouldn't know their left from their right. (We would put stickers on your hands to help you.)

Properties of Shapes Recognising Turns

A turn is to rotate about a point.

A turn can be described as a quarter-turn, half-turn, three-quarter turn or a complete turn.

A turn can be completed clockwise and anticlockwise.

Clockwise

	
1 right angle quarter-turn clockwise 90°	2 right angles half-turn clockwise 180°
	
3 right angles three-quarter turn clockwise 270°	4 right angles complete turn clockwise 360°

Anticlockwise

	
1 right angle quarter-turn anticlockwise 90°	2 right angles half-turn anticlockwise 180°
	
3 right angles three-quarter turn anticlockwise 270°	4 right angles complete turn anticlockwise 360°

Turns and Angles Diving

An angle is made when two straight lines meet.

Each of these pictures shows one or more angles.

Turns and Angles Deeper

The child is facing the circle. If they make a quarter turn clockwise, which shape will they be facing?

Turns and Angles Diving

A right angle is made when two lines meet like this:

A quarter turn looks like this:

The size of a right angle is 90°.

When something makes a quarter turn, it turns 90°.

Turns and Angles Deepest

What turning instructions would you give to the robot to escape the maze?

Developing

Turns and Angles

1a. Start at north. Turn a quarter turn clockwise. Which direction are you now facing?

VF

Turns and Angles

1b. Start at north. Turn a quarter turn anti-clockwise. Which direction are you now facing?

VF

2a. What turn does the spinner need to make to get from the caterpillar to the butterfly?

VF

2b. What turn does the spinner need to make to get from the butterfly to the snail?

VF

3a. If the hour hand is turned a quarter turn, what time will it be?

VF

3b. If the hour hand is turned a quarter turn, what time will it be?

VF

4a. Sort the images into the table.

Angle	Not an Angle

VF

4b. Sort the images into the table.

Angle	Not an Angle

VF

Developing continued

1) Complete the sentence below:

An angle is made when two _____ lines meet at a point.

If I turn 90° , I will have made a _____ turn.

90° is the size of a _____ angle.

2) Circle the pictures below that show angles:

- Baby Joel after his bath. I think he likes sticking his tongue out!

Expected

Turns and Angles

Turns and Angles

5a. Start at north. Turn three quarters clockwise. Which direction are you now facing?

VF

5b. Start at south. Turn three quarters anti-clockwise. Which direction are you now facing?

VF

6a. What turn does the spinner need to make to get from the spider to the dragonfly?

VF

6b. What turn does the spinner need to make to get from the bee to the butterfly?

VF

7a. If the hour hand is turned a $\frac{3}{4}$ turn, what time will it be?

VF

7b. If the hour hand is turned a $\frac{3}{4}$ turn, what time will it be?

VF

8a. Sort the images into the table.

All lines make angles	Not all lines make angles

8b. Sort the images into the table.

All lines make angles	Not all lines make angles

VF

Expected continued

1) Complete the sentence below:

An angle is made when two _____ lines meet at a point.

If I turn 90° , I will have made a _____ turn.

90° is the size of a _____ angle.

2) Circle the pictures below that show angles:

1) If I start facing the circle each time, which shape will I be facing after each of the following turns?

a quarter turn anticlockwise _____

a three-quarter turn clockwise _____

a 90° turn clockwise _____

a whole turn anticlockwise _____

2) Write the turns I would need to make if I started facing the square each time and wanted to face:

the rectangle _____

the circle _____

the triangle _____

Greater depth

Turns and Angles

9a. Start at north. Turn a quarter turn clockwise then a half turn anti-clockwise. Which direction are you now facing?

VF

Turns and Angles

9b. Start at north. Turn three quarters clockwise then a half turn anti-clockwise. Which direction are you now facing?

VF

10a. What two different turns could the spinner make to get from the dragonfly to the caterpillar?

VF

10b. What two different turns could the spinner make to get from the ladybird to the butterfly?

VF

11a. If the hour hand is turned a $\frac{1}{4}$ turn, what time will it be?

VF

11b. If the hour hand is turned a $\frac{1}{4}$ turn, what time will it be?

VF

12a. Sort the images into the table.

All lines make angles	Not all lines make angles

VF

12b. Sort the images into the table.

All lines make angles	Not all lines make angles

VF

Greater depth continued

- 1) If I start facing the circle each time, which shape will I be facing after each of the following turns?

a quarter turn anticlockwise _____

a three-quarter turn clockwise _____

a 90° turn clockwise _____

a whole turn anticlockwise _____

- 2) Write the turns I would need to make if I started facing the square each time and wanted to face:

the rectangle _____

the circle _____

the triangle _____

- 1) I start facing the triangle and end facing the rectangle. My friends say:

Mira

You must have made a quarter turn anticlockwise.

Ian

You turned a three-quarter turn clockwise.

Who do you agree with? _____ Why? _____

- 2) Create a path on squared paper for a robot to follow. The angles on your path must only be right angles. Mark a start and finish point at each end. Write a set of instructions for the robot to follow to walk from start to finish. Use the vocabulary here to help you:

quarter turn

clockwise

anti-clockwise

forwards

Answers for all levels

Varied Fluency Turns and Angles

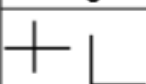

Developing

- 1a. **East**
 2a. **Half turn clockwise or anti-clockwise.**
 3a. **12 o'clock or 6 o'clock**
 4a.

Angle	Not an Angle
	

Expected

- 5a. **West**
 6a. **Quarter turn clockwise or three quarter turn anti-clockwise.**
 7a. **12 o'clock or 6 o'clock**
 8a.

All lines make angles	Not all lines make angles
	

Greater Depth

- 9a. **West**
 10a. **Half turn clockwise and half turn anti-clockwise**
 11a. **7 o'clock or 1 o'clock**
 12a.

All lines make angles	Not all lines make angles
	

1) *straight, quarter, right*

2) 

1) *triangle*
triangle
square
circle

2) *a quarter turn clockwise (or three-quarter turn anticlockwise)*
a quarter turn anticlockwise (or three-quarter turn clockwise)
a half turn

1) *Both. Both turns would end with you facing the rectangle.*

2) *Multiple answers possible.*

English Spellings: Thursday

Spellings are a little different this week as we are going to focus on some topic words.

On the next slide are several activities you can do at home to practice your spellings. This is also a good idea to practise your kinetic letters handwriting.

Learning how to spell

look 

say 

cover 

write 

check 

Your spellings:

1. Prey
2. Predator
3. Consumer
4. Producer
5. Herbivore
6. Omnivore
7. Carnivore
8. Vertebrates
9. Invertebrate
10. reproduce

Why not try some of these spelling games online.

Spelling games

English Spellings: Thursday

Activity 1:

Make a word search with your words. You will need some square paper. First write your words either vertically or horizontally in the blank squares. Then you will have to fill in the empty squares with letters to hide your words. Ask a member of your house to complete your word search.

Rollin' Rainbow Spelling

Roll the dice and write your spelling word that number of times in the color listed.

Spell the word in red.

Spell the word in orange.

Spell the word in yellow.

Spell the word in green.

Spell the word in blue.

Spell the word in purple.

Activity 2:

Rollin' rainbow spelling game. Roll a dice and write your spelling word in that colour. Write them in your best kinetic letter handwriting. You can use the sheet in this PowerPoint to practise on.

Kinetic letter practise grid

Optional art activity

So I have been searching for some different types of arts or crafts things to do on a Thursday that maybe ou haven't done yet.

I've found this really cool video of a fold our plant. It takes you through the drawing stage step by step ad all you need is paper and felts.

Plus it fits in really nicely with our theme for the week. Give it a go and see what you can create.

https://www.youtube.com/watch?time_continue=32&v=_J_9aZ75vM8&feature=emb_logo
