

Wednesday 13th May 2020

For the 'everyday' activities please see Monday's power point. This will save you having to keep printing the same slides.

Today is well being Wednesday

Choose an activity from below, they are all linked to being kind to yourself which is sometimes quite difficult at the moment. You can choose any activity that you fancy.

Mrs Faber: I'm going to have a go at number 10 and 11.

Mrs Wellings: I'm going to have a go at 14 and 15.

Which one will you choose?

COPING CALENDAR: KEEP CALM. STAY WISE. BE KIND

Wednesday's Maths !

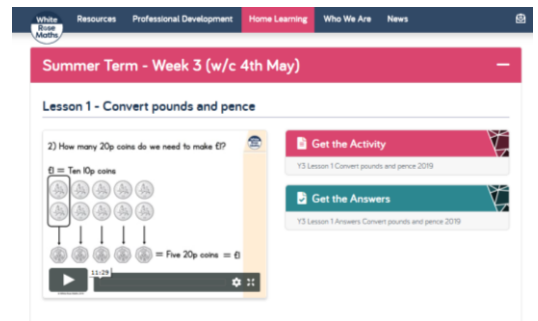

First complete the ten in ten arithmetic questions.

Next watch the video on this link that is from White Rose Maths - you will notice that it is similar to the power points that we use in class.

- <https://whiterosemaths.com/homelearning/year-3/>

We are now onto Summer week 3 - which is week beginning 4th May. Our new topic is Money!

This is what the page looks like.

- **Grown ups** - If for any reason the link doesn't work it is because everyone is trying to access the same documents potentially from all over the country if not world. Please try the link again later in the day or later in the week. It is an excellent resource and once everyone has settled into a routine you should be able to access it. White Rose was the only website that didn't continually crash due to traffic in the first couple of weeks and the resources are excellent.
- **Children** - you should be able to watch the little video and complete the work on your own (I've tried it out on my own children and it works well) The videos are only 5 or 6 minutes long and you can pause them to go and try the questions and then carry on.
- **Then** complete the activities. If you can't print the worksheets, don't panic, most of the activities can be done on a piece of paper, you might just have to draw a few things out, like we sometimes do in class.
- **Finally** check your answers and correct any mistakes, just like we do in class. You can even use a pink and green pen if you want to.

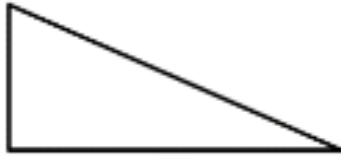

Mental Maths: Today there are 16 questions, you can stop at 10 if you want to or challenge yourself to do all 16!

Monday 24th March

9:50 a.m.

I wonder if the person who gave the rainforest its name had ever actually been there. Surely, if they had, they'd have called it the 'plant forest' instead.

Mrs Curtis, my teacher, told us that more than two thirds of the world's plant species live in rainforest environments. That's more than 80,000 different plants!

There's no way that I'm telling my Grandma Wilkins that! She'd be on the first plane to Brazil with her lucky gardening gloves because she really loves plants. Do you know, she once told me that she might love plants even more than she loves my mum! Don't worry, I haven't told my mum that.

That's one of the reasons why I volunteered for this project - so that I could tell my grandma about all the plants. Mrs Curtis wanted one of us to spend a whole week looking at some webcams in the Amazonian rainforest.

I put my hand straight up. My best friend, Millie, said that the last time she'd seen anything move as fast

as my arm was when someone told her daft brother that the bank was giving away free money. Who wouldn't volunteer to spend the whole week looking at the Amazon? I think that I'd be really good at spotting all the different plants and animals.

As soon as Mrs Curtis looked at me, I knew that I hadn't been picked. She had the same expression on her face that she uses to tell us that we've got a maths question wrong as she said, "Maybe next time, Daisy." Jack Walters got picked instead, but he changed his mind when he found out that we're only allowed to look at the webcams during our breaks and at lunchtime. He said that there was no way that he was going to miss playing football in the playground. So Mrs Curtis ended up choosing me anyway! I don't mind having to do normal lessons. I got nine out of ten on my spellings last week. Still can't spell rhinoceros, though.

Mrs Curtis said that I have to write a journal entry to tell the rest of the class what I've seen on the webcams. I haven't written a journal before. The only things I write at home are lists of my favourite songs and the things I want for Christmas, but Mrs Curtis said not to worry and to just write as I like to speak. I think that should make it easier!

History: What happened to the Mayas?

Click the image to find out.

<https://www.bbc.co.uk/bitesize/topics/zq6svcw/articles/zndq7p3>

People often think that the Mayas only existed in the past. Today there are over seven million Maya people, most of whom live in Central America and southern Mexico.

Even though the Spanish conquest resulted in centuries of cruelty towards the Maya people, causing their population to decline, many Maya people still maintain some of their traditions. In fact, there are currently 31 different Mayan languages being spoken today.

However, these languages are becoming endangered because of **discrimination**. Sometimes people won't even be offered jobs if they speak a Mayan language! To keep these languages alive, some people write literature in Mayan languages as well as Spanish, so that their culture will not die out forever.

Ancient Maya Timeline

Activity 1: order events in ancient Mayan history.

Above is a time line of ancient Mayan history. However some of the events are missing.

On the next slide you have some timeline cards. You can either draw and create your own time line by copying the images and information into your own format.

OR

You can print the cards and stick them in chronological order (this means from the earliest date to the most recent).

History: timeline cards

900-300 BC

The first hunter gatherers settle on the Pacific coast.

800 BC

Village farming and trade becomes established.

700 BC

Mayan writing is developed in Mesoamerica.

400 BC

Earliest solar calendars are invented.

300 BC

The social structure adapts to include Kings.

100 BC

The first pyramids are built.

450 AD

Tikal dominates the tropical lowland of central regions.

638 AD

Pakal the Great of Palenque dies.

800 AD

Sites in the rainforest are abandoned.

1,502 AD

First contact with Europeans made.

Music

Activity:

Today in music listen to 'The Animal Boogie' song.

Your challenge is to add your own sounds and actions to the song. You could then perform your piece to a grown up or someone in your house.

If you have musical instruments at home you could use those, if not get creative and think about what objects around your home you could use to make music!

'Remember, everything makes music if you really want it to' - from Giraffes Can't Dance.
