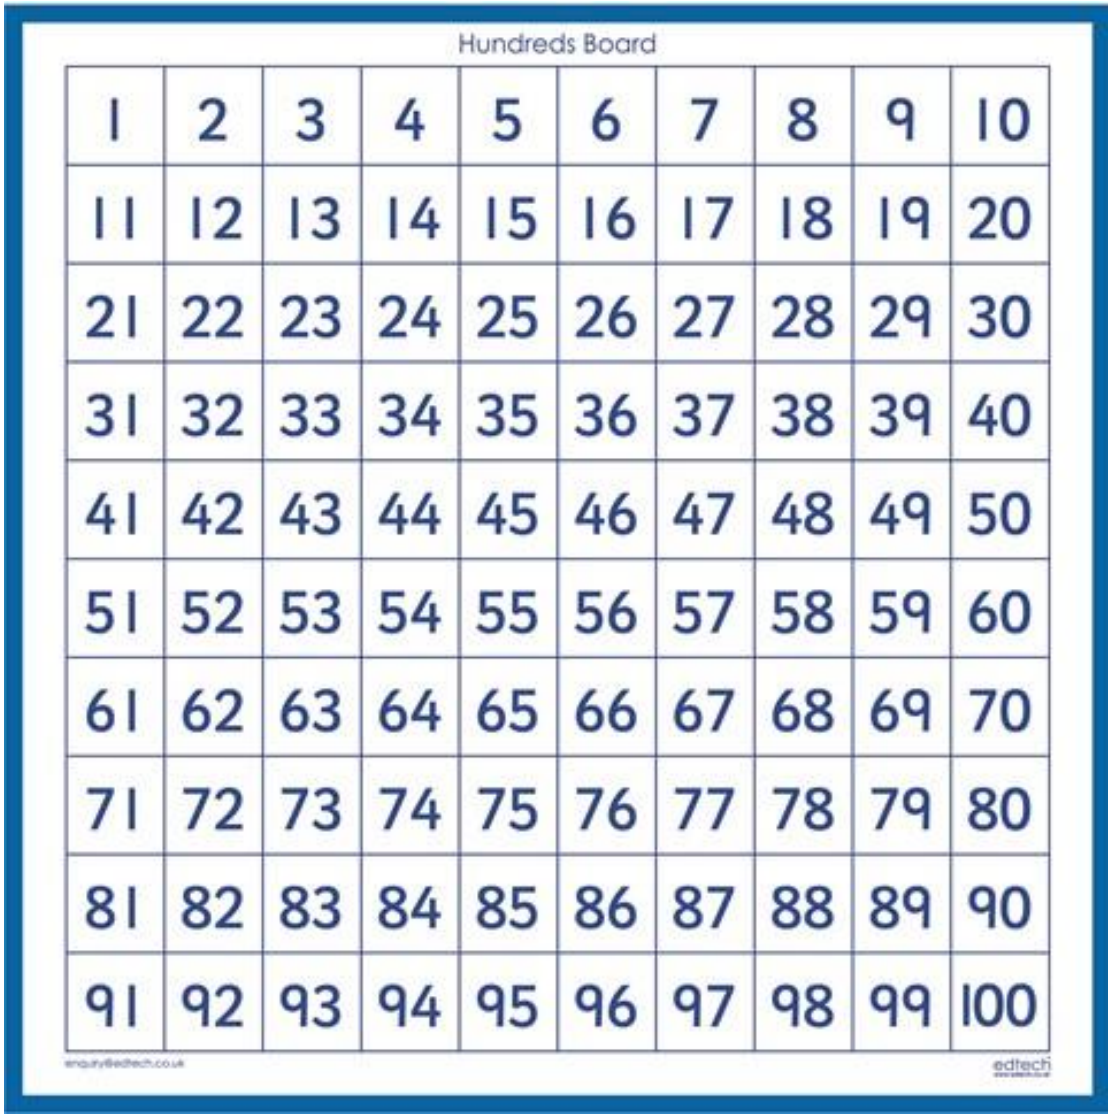
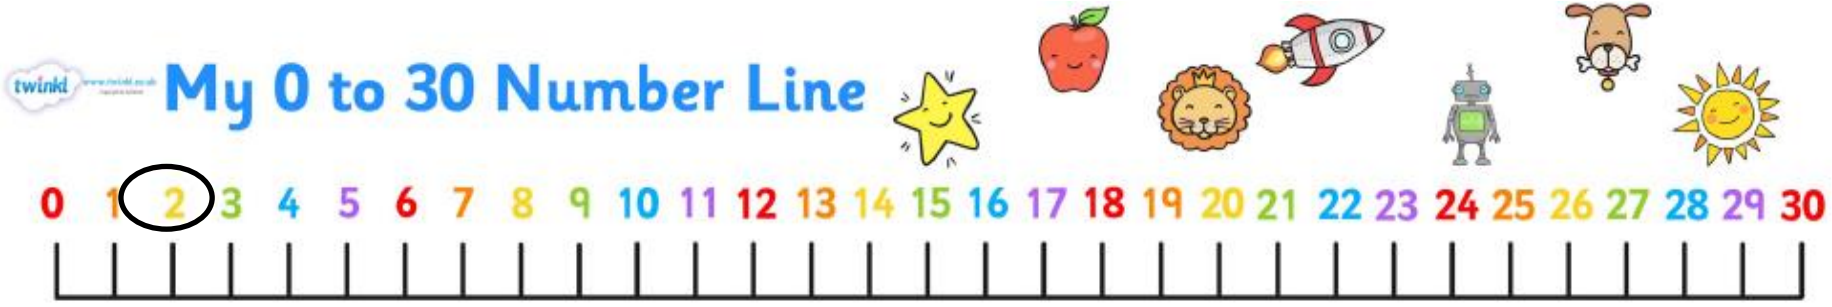
Start at any given number and count up or down from it in 10s. Discuss the patterns that you notice.



WALT: Solve one-step problems that involve addition and missing numbers where both sides are equal.

# Recap:

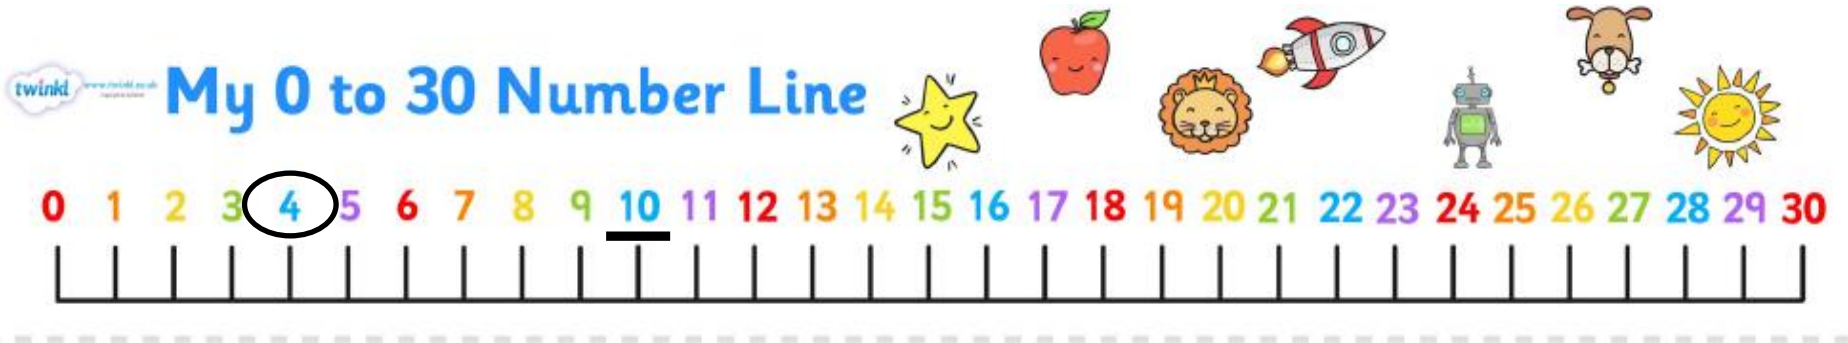
$$2 + 9 = \square$$



WALT: Solve one-step problems that involve addition and missing numbers where both sides are equal.

# Explore:

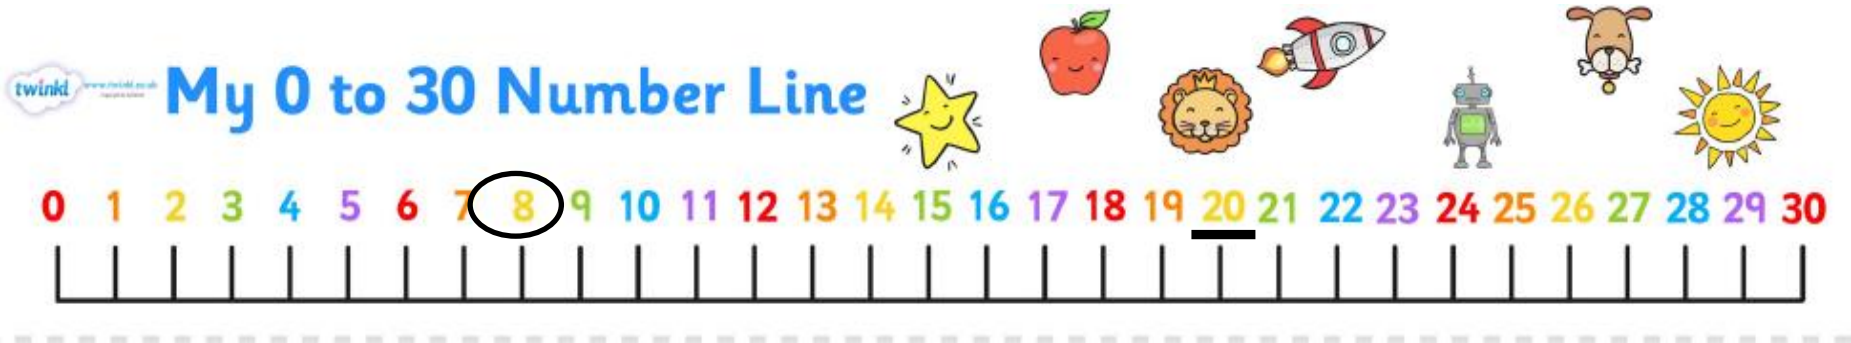
$$\square + 4 = 10$$



WALT: Solve one-step problems that involve addition and missing numbers where both sides are equal.

# Explore:

$$8 + \square = 20$$



WALT: Solve one-step problems that involve addition and missing numbers where both sides are equal.

Explore:
