Reading at home

You should still be aiming to read for *at least 20 minutes everyday*.

If you're running out of reading material at home, there are lots of books that you can read or listen to online for free! Two websites we would recommend to do this are: <https://readon.myon.co.uk/> and <https://stories.audible.com/start-listen>

Remember, you can now take Accelerated Reader quizzes from home by using this link [Howley Grange Renaissance at home](#) and logging on as usual using your username and password.

To check that the book you are reading has a quiz, you can check it using on [Accelerated Reader Bookfinder](#). It's okay to read books which haven't got a quiz - just keep a record of what you have read.

Keep reading and exploring new worlds and adventures!

English

W.A.L.T: apply our knowledge of Spelling, Punctuation and Grammar.

- Just like last week, on slides 9, 10 and 11 there are some SPaG revision mats for you to have a go at to check that you still understand some of the concepts you've learned so far.
- They are starred-attempt the star which you usually start on in English-if you're finding it too easy or too hard you can always choose a different starred sheet.
- The worksheets are very similar so we do not want you to do all three-our expectation is that you try and complete one.
- You may choose to print it out (if that is an option available to you) and write on the sheet or alternatively, you may write down the answers in your English homework book or on paper that you have at home. Even if you print it out, you may still need to write extended answers on paper instead of squashing them up.
- On the following slides there are some learning reminders/helpful hints which you may need to look back at to help you complete your worksheet-you do not need to print them-they have not been designed to be printed.
- As always, answers can be found at the end of this presentation (no cheating though!)
- You may choose to miss out this activity and continue to solve: 'Who stole the emoji's colour mystery?' if you didn't get chance to finish it yesterday.

Have you played in Studio yet? There's still time to climb the leader board!

We understand that you may not be able to get involved online and are practising your tables in other ways e.g. completing paper booklets, chanting them, saying them as you go up the stairs etc. -that is absolutely fine too!

But if you are able to get involved, we'd love as many of you to do so as possible.

Aim to spend 15 minutes each day practising your times tables and associated division facts- we don't mind how you do it but we don't want you to forget them as they will help you for the rest of your lives!

10-4-10

Complete in the same way as we do in school. Aim to complete as many questions as you can in 10 minutes. Miss them out if you're spending too long thinking about how to tackle them. You don't need to write the question. Only show your workings if you need to. You should use the squares in your Maths homework book as this will help you set out any written methods.

Revision...just checking you can...

W.A.L.T: accurately tell the time in different contexts.

- Think back to the home learning you've previously done on time.
- On the following slides, there are some learning reminders- as well as some things for you to think about as you read them, you may choose to jot down the answers but you don't have to (answers to these are on the slides that follow so that you can check your understanding as you go along).
- You will have seen the learning reminders before-some of you will need to spend more time looking at them than others. If you feel confident with the concept of telling the time in various situations, you can move straight to the worksheet that follows.
- As you're used to by now, the answers are at the end of today's presentation-no cheating though!

Telling the Time

O'Clock
A new hour begins when the minute hand points to 12.

Quarter To
45 minutes into the hour and 15 minutes before a new hour begins.

Half Past
30 minutes into the hour. 30 is half of 60.

Minute Hand
The long hand points to the minutes past or to the hour.

Quarter Past
15 minutes into the hour. 15 is one quarter of 60.

Hour Hand
The short hand points to the hour. If this hand is pointing in between hours, it is the earlier hour of the two.

Reminder...

You may remember seeing this in Key Stage 1. We have included it to remind you that an analogue clock is divided into 12 5 minute sections. There are 60 minutes in 1 hour. Each time the, long, minute hand moves to the next digit, 5 minutes have elapsed.

Time

60 seconds = 1 minute

60 minutes = 1 hour

24 hours = 1 day

7 days = 1 week

365 days = 1 year

52 weeks = 1 year

10 years = 1 decade

100 years = 1 century

1000 years = 1 millennium

What Time Is It?

What Time Is It?

It is 7 o'clock.

It is half past 8 or 8:30.

It is 11 o'clock.

It is half past 2 or 2:30.

It is quarter past 11 or
11:15.

It is quarter to 7 or
6:45.

It is five minutes to 4 or
3:55.

It is 10 minutes past 5
or 5:10.

The 24 Hour Day

A day has 24 hours. A clock has 12 hours.
This means each time will happen twice every day.

half past 2 in the morning

half past 2 in the afternoon

a. m. and p. m.

We have to use a way to write these times differently. One way is to use a.m. and p.m.

a. m. (ante meridiem – before noon)

2:30 a. m.

p. m. (post meridiem – after noon)

2:30 p. m.

The 24 Hour Clock

Another way is to use a 24 hour clock.

This means the hours after 12 noon are converted to 13:00 to 23:00.

2:30

14:30

A 4 digit format is used. 2 digits for the hour, a colon (:), and 2 for the minutes.

24 Hour Hours

This clock and table show the corresponding hours on a 24 hour clock.

00:00 = 12:00 AM	12:00 = 12:00 PM
01:00 = 1:00 AM	13:00 = 1:00 PM
02:00 = 2:00 AM	14:00 = 2:00 PM
03:00 = 3:00 AM	15:00 = 3:00 PM
04:00 = 4:00 AM	16:00 = 4:00 PM
05:00 = 5:00 AM	17:00 = 5:00 PM
06:00 = 6:00 AM	18:00 = 6:00 PM
07:00 = 7:00 AM	19:00 = 7:00 PM
08:00 = 8:00 AM	20:00 = 8:00 PM
09:00 = 9:00 AM	21:00 = 9:00 PM
10:00 = 10:00 AM	22:00 = 10:00 PM
11:00 = 11:00 AM	23:00 = 11:00 PM
12:00 = 12:00 AM	24:00 = 12:00 PM

Midnight is referred to as both 00:00 and 24:00

24 Hour Time in the Morning

To convert between 12 and 24 hour time in the morning change the format.

The hours stay the same.

24 Hour Time in the Afternoon

To convert between 12 and 24 hour time in the afternoon add or subtract 12 hours and change the format.

6:00 p.m. becomes 18:00

22:30 becomes 10:30 p.m.

Convert 12 to 24 hour

Convert these times to 24 hour time. Remember in the morning (a.m.) the hour stays the same, in the afternoon (p.m.) then we add 12 to the hour digits.

12 hour time	24 hour time
2:45 a.m.	
10:20 a.m.	
1:55 p.m.	
3:05 p.m.	
5:35 p.m.	
8:40 p.m.	
11:25 p.m.	

Convert 12 to 24 hour

How did you get on?

12 hour time	24 hour time
2:45 a. m.	02:45
10:20 a. m.	10:20
1:55 p. m.	13:55
3:05 p. m.	15:05
5:35 p. m.	17:35
8:40 p. m.	20:40
11:25 p. m.	23:25

Convert 24 to 12 hour

Convert these times to 12 hour time. Remember if the hour digits are more than 12 then it must be afternoon (p.m.) so we subtract 12 from the hours digits to convert to 12 hour clock.

24 hour time	12 hour time
03:15	
11:15	
14:45	
16:20

14:45	2:45 p. m.
16:20	4:20 p. m.
18:55	6:55 p. m.
