

Anti-Bullying Policy BY children FOR children

There are many types of bullying. Bullying is:

- Physical Bullying: Hurting others physically e.g. pushing, kicking, hitting, taking / damaging belongings.
- Verbal Bullying: Calling names, swearing, not saying nice things, making threats
- Cyber bullying: Out of school on the internet or smart phones using social media
- Emotional Bullying: Constantly picking on someone, leaving people out deliberately, spreading rumours

- Bullying can happen anywhere – not just at school.

If you notice any bullying around school, other children and young people should do the following:

- Talk to the person being bullied, offer advice and be there for them.
- Advise them to tell a trusted adult like a family member or a teacher.
- Advise them to tell an 'Anti-Bullying Buddy'
- Tell their teacher/parent/carer about the bullying on their behalf
- Try to see it from both perspectives and don't take sides
- Speak to the bully (only if safe)
- Don't assume that the person who is often in trouble in class is a bully.

If you are being bullied you can:

- Tell a trusted adult.
- Talk to an 'anti-bullying buddy'
- Keep a diary of any evidence
- Never retaliate and don't fight back
- Try not to give the bullies pleasure of getting a reaction
- If it's cyber bullying, immediately block them and tell a responsible adult.
Keep messages/comments for evidence

Bullying makes you feel:

- upset and hurts your emotions
- sad
- angry
- insecure
- unwanted and unliked
- uncared for
- lonely
- frustrated
- anxious to come to school
- ugly
- inadequate

Bullying Must Be Stopped!!
